BANGOR DAILY WHIG AND COURIER.

BY WHEELER & LYNDE. MONDAY MORNING, JUNE 20, 1858. VOLUME XXIV.....NUMBER 301.

Ayer's Pills

Are particularly adapted to derangements of the digestive organs, and diseases arising from impurity of the blood. A large proportion of all the complaints that afflict mankind are of this kind, originate in one of these organs, and consequently these Pills are found in cure many various forms of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. R. W. Cornelius, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild but very certain and effectual in their action on the bowels, which makes them invaluable to me in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Ball, of New York City.

"Not only are your Pills admirably adapted to their purpose as a cathartic, but I find them beneficial effects upon the Liver very marked indeed. They have proved more effectual for the cure of *chronic* complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. My peculiarity are they adapted to the diseases of the human system, that they work upon them alone. I have cured some cases of dyspepsia and liver complaint with them, which had resisted all other remedies we commonly use. Indeed I have expelled complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Owen, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *chronic dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. M. Stuart, who practises as a Physician and Midwife, in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best family medicine we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. V. Temple, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of *constipation*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolificmother of others that are worse. I believe *conscientiously* in their curative powers, and can, on occasion, give testimony on an official station to the fact that they are the best we have, I of course value them highly."

FOR MOST of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. Though contain no mercury or mineral substance whatever.

PREPARED AND SOLD BY DR. J. C. AYER, PRACTICAL AND ANALYTICAL CHEMIST, LOWELL, MASS.

AND SOLD BY

W. L. Alden & Co.; S. R. Perkins; B. F. Bixbury & Co.; N. S. Harlow; A. P. Gould; and S. Ingraham, Bangor; N. Walker & Son, Old Land; Wm. Hooper, Castine; C. G. Peck, Ellsworth,—and all Druggists.

Robert B. Patterson, Edward A. Strong, Charles S. Mackrept, John R. Weeks, Lewis C. Grover, Andrew S. Suelling, John O. Low, Randall H. Green, Henry McFarlan, Joel W. Condit, Isaac H. Frothingham, Nehemiah Berry.

ROBERT B. PATTERSON, President.

JOEL W. CONDIT, Vice President.

Benj. C. Miller, Secretary.

Such times as the present should cause every business man, with a family dependant upon him, to consider what the condition of those he loves, might be should he be suddenly taken away by death. All can now fully notice the uncertainty and instability of fortunes made in business. The millionaire merchant of yesterday is to-day the insolvent debtor. To guard against such reverses let every man insure his life for the benefit of his family, which insurance cannot be disturbed by his creditors. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country—Its instruments are in first bonds and mortgages on real estate worth more than double the amount loaned. One half of the Premium on The Policies may be paid by note bearing 6 per cent interest. Dividends are declared annually to those who have paid two Life premiums—there are no stockholders to take any of the profits which rightfully belong to those who are insured for life. Prospectuses, statements and applications will be furnished (without charge) and all information desired will be given by the undersigned Agent.

N. B. Persons residing in any portion of the country, desirous of insuring their lives, will be supplied with all the necessary papers and with minute instructions to enable them to make applications by addressing the undersigned.

BENJ. PLUMMER, Agent, Bangor.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP, suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife, can do all the repairing that it will need for twenty years, as it will not get out of order, and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

E. R. SMITH.

Freights for Vessels

OBTAINED

On Commission,

By SETH E. BENSON,

Commission Merchant,

No. 1 City Point Block.

CAPTAINS visiting this city for employment can find at my office a list of all Freights ready in the market, corrected daily, and will be charged a commission on the freight, if they are introduced to one. Shippers of Lumber, or any other articles of Merchandise, will confer a favor if they will call and make their wants known, and every facility will be afforded them, free of charge. A list of the vessels in the market will be kept, stating their capacity, &c. Captains of vessels are respectfully invited to call and enter their vessels on the list, and, if they do not receive any benefit, I will ask them no pay.

Lumber of all kinds for sale on commission. Orders for Dimensions, of all kinds, filled at short notice and on as favorable terms as by any dealer in the market.

SETH E. BENSON.

Flower Seeds.

CHOICE VARIETIES, from the garden of John Lemon, for sale by

E. S. PATCH.

Otis' Lightning Rods.

The only Patent which affords absolute Protection against Lightning, as demonstrated by science and experience.

This Rod has been extensively used thro' the Southern & Western States, West Indies and the Canadas, since 1851, and though it has been struck in hundreds of instances, it has never *failed to protect.*

The great amount of damage done recently by lightning has called attention, as it should, to the protection of buildings by the use of lightning Conductors. It is all important that the rod used should be one that *will give protection*, and in roofing buildings it should be done by one having experience in the business.

Mr. Reed, former partner of B. P. M. Kimball, now proprietor of the patent for Penobscot Co., has returned to this city to commence business for the coming season. Having had large experience, he assures the public that all his work of this kind will be done in a thorough, neat, and scientific manner.

Samples of this Rod, and certificates of its merits from many of the most eminently scientific men in the country, may be seen at D. M. HOWARD'S Store, on Exchange street, No. 15; and at Dodge's Hotel, Harlow st., and at the office of the Penobscot Mutual Fire Insurance Co., Granite Block, East Market Square, Bangor.

J. D. REED, Proprietor.

A. K. PABBRBY, Agent for the sale of Rods this season.

SANDERSON & LANERGAN, Etna Laboratories, East Cambridge and South Reading, Mass.

P. S. Our extensive engagements in the Exhibition business have led many to suppose we furnished the Fire Works to the City of Boston last year (1857) when the unfortunate and fatal accident took place on the exhibition ground.

In justice to ourselves, and in answer to enquiries, we will state that, although we supplied the city of Boston for a number of years, and have contracted for the same the present year, we DID NOT supply them last year, the contract for 1857 having been given to other parties.

Safety, Utility and Beauty.

New England Trace Coupling Company,

STATE RIGHTS FOR SALE.

WE are now exhibiting this desirable invention to the public. The Patent Trace Coupling is an article which needs only to be seen to be appreciated, and universally adopted. By this Coupling the Trace is attached to the whiffletree *instantaneously, without asking the horses to be disconnected by accident*; its stronger and more *durable than any other* attachment now in use, and makes what is so desirable, in a fine carriage, an *excellent finish.*

The Couplings are manufactured of different materials, from the common finish to the *finest silver plate*, and can be supplied at a *lower cost* than any thing that is now used for that purpose, leaving a margin for an *unusual profit.* Any person with a moderate capital can soon realize a fortune in the sale.

We are prepared to furnish the Couplings, of the different grades and costs, in quantities as desired, to those only who purchase State rights.

The Coupling may be seen at the office of the Company, where a scale of prices may be obtained, and all communications must be addressed to THE NEW ENGLAND TRACE COUPLING COMPANY, *Basement No. 3, Old State House, Boston.*

REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston,

PATENTS secured in the United States, and in all other great granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Reissues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and I can speak in that capacity in constant correspondence and intercourse with this Office, he has evinced a thorough acquaintance with the Patent Laws and with the rules and practice of the office, close attention to the interests of his clients, and a marked courtesy and courtesy that have rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his acquaintance and attainments are eminently fit him for the business in which he is about to engage.

HENRY L. ELLSWORTH, L. D. GALE, } Principal Examiners.

E. H. LANE, F. SOUTHGATE SMITH, T. EDMUND PHALE, THOS. T. EVERETT, WM. C. LANGDON, } Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

Boston, Jan. 19, 1858 3tawly

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISSEURS TO BE THE *Only Good Sauce!*

EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May, 1851.

"TELL LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

AND APPLICABLE TO EVERY VARIETY OF DISH.

The only Medal awarded by the Jury of the New York Exhibition, for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide name of which having led to numerous imitations, purchasers are earnestly requested to see that the name of "LEA & PERRINS" is impressed upon the Bottle and Stopper, and printed upon the Labels.

STATE OF MAINE.

EXECUTIVE DEPARTMENT
Augusta May 20, 1858

An adjourned session of the Executive Council will be held at the Council Chamber in Augusta on TUESDAY, the *twenty second day of June next* Attest

NOAH SMITH, Jr.,
Secretary of State

The editor of the Custom House organ is very naturally distressed at the union of the opposition in Delaware, Pennsylvania and some other States which are this year to be lost to Buchananism—and when the Union man is distressed he usually falls to abusing his neighbors and misrepresenting and falsifying facts He says the Great Republican Party has abandoning —because the opposition in Delaware has adopted a platform for a People's party Now this fact, instead of showing any tendency of the Republican party to *disband*, indicates most clearly that it is gaining strength throughout the country — The hunkers declared in 1856 that there was no Republican party in any Southern State, and yet they now talk about the "disbanding of the party, because the people of *Delaware* are uniting in opposition to the black democracy

The Delaware movement, like that in Pennsylvania only indicates that in several of those States where the Republican party has not yet gained strength enough to cope single handed with the Buchanites there is to be a combined movement for their defeat The Republicans and Americans united in the Pennsylvania State election in 1856 and carried the State then by any honest count of the votes—but nobody thought that the Republican party of the Union had thereby become 'disbanded,' or had deserted any of its principles

The fact is the Republican party never was so strong in the hearts of the people as at the present day It is based upon a platform of principles more vital and more enduring than any which are or can be presented by the sham democracy—and principles, too, which are as certain to prevail in this country as truth is to triumph over error, or liberty over despotism

The political movements which the Union now perceives, and pretends to regard as a breaking up of the Republican party, are but the advances which the other elements of the opposition are making *towards* Republicanism The Republican party is to be the great rallying point for the friends of constitutional freedom and of the Union everywhere It is the party, and the only party, which now throws the National banner to the breeze, and declares itself the champion of the Constitution and the Union in their original strength and purity The Sham Democracy will soon represent *Disunionism* alone To the end it is rapidly tending Southern disunion sts even now control its actions, frame its platforms, and mould its policy They are even now attacking every northern interest, with the bold design of provoking a disunion feeling at the North—of driving us away from any fraternity with them They are endeavoring to withdraw national protection from every northern interest, (the Fisheries Navigation and manufactures are already attacked) while protection to Southern interests is retained And demonstrations are already made by the Southern Democrats towards the next step in the disunion programme Which is to abolish the system of duties altogether, and have the expenses of government paid by assessments upon the several States as under the old Confederation which was found too weak to stand — Under this system each State would pay as long as it chose to do so, and no longer There would be no power to compel payment; and a dissolution of the Union would be brought about very simply and very easily, by a refusal of one or more of the Southern States to pay their quota of the National expenses — This is the legitimate end of the policy recently marked out and advocated in a report of a Democratic committee of the U S. Senate, headed by Mr Bayes of South Carolina—and it is the fate towards which sham democracy is fast hurrying the country, and from which the Republican party alone can save it.

The quarrels of the Waldo democracy, instead of being 'harmonized' are becoming more and more bitter since the Custom house question was 'settled,' and the fight has extended into Lincoln Smart and Dickerson now fire vigorously at each other from their respective organs in Belfast and Rockland—the shots being quite as effective as when the parties were at closer quarters,—while the followers of the 'rival houses' are ready to give each other short shrift and a bloody shroud.

The war just now centres upon the appointment of Geo B Moore of Belfast, to the place of custom-house officer at Camden Moore is Dickerson's particular friend, and having been his associate organ grinder in the Belfast Journal, and an especial object of antipathy to Smart, his appointment to a local custom house office in Camden, Smart's own town, is taken as a direct personal insult Moore has been consequently attacked both by resolutions in the party caucus in Camden, and through the columns of Smart's organ, the "Rockland Democrat." George is pugnacious, and fired back, "with effect, through the Dickerson organ at Belfast This brought down a tremendous onslaught upon him from the Smart men, in the last number of the Democrat As a specimen of the style of this democratic warfare, we copy a few sentences, not supposing, however that Moore has been at all damaged by such ebullitions

Little Moore's case is different from any other No democrat of any self-respect would, in our opinion, hold an office a moment after being denounced in resolutions by the entire party where the office is located No creature but the slimy adventurer of a reptile race would remain to crawl about among those who have in public meeting unanimously resolved that they regard him with contempt Only think of the late vaunted editor of the Republican Journal, the confident aspirant for the Havre consulship the dignified and independent arrainer of others, as being mercenary, sordid, servile sycophantic, humbly creeping down from Belfast to Camden, to take a little water at a berth away from aspirants in the common walks of life, and then blating out in vindicating his position over his own name, their being no publisher who would consent to be the conduit of his filthy ejectment! Here indeed is a long step from the sublime down to the ridiculous What next for Camden?—The importation, doubtless, of "cobnap niggers," to act as Postmasters, to be palmed off upon the Administration as worthy accretions

Among the appropriations made at the late session of Congress, were the following items for public works in this section of the country For completing custom house at Ellsworth Me $2000, at Portsmouth N. H, $50 000, Bristol, R. I, $5000, New Haven, Conn, $60 000 For completing the Marine Hospital at Portland, $3000 For fencing, grading, paving and furnishing custom houses—at Ellsworth Me $3000, Bath, Me, $1100, Burlington, Vt, $4000, New Haven, Conn, $9500 For fencing grading and furnishing marine hospitals—at Burlington, Vt, $3400, at Chelsea Mass, $19 700 For continuing the construction of the fort at Hog Island Ledge in Portland harbor $40,000

The vote in the Senate upon the question of declaring Messrs Bright and Fitch not entitled to seats as Senators from Indiana, stood — Yeas 23 Nays 30 All the Republicans, and Messrs Broderick, Douglas, Mason and Pearce (Democrats) and Houston (Am) voted against the bogus Senators All the other Democrats and Americans present voted to keep them in Messrs Stuart, Cameron, Bayard, Crittenden and Sumner were absent.

ANOTHER ILLUSTRATION OF BUCHANAN'S CHARACTER It appears that all the bills and resolutions sent to the President at the close of the recent session were signed, with the exception of a bill in regard to carrying the mails from St. Joseph, Missouri, to Placerville California This bill he pocketed — and in elucidation thereof the correspondent of the N Y Post throws light as follows

It is believed he refused to sign the bill because the projected route was likely to demonstrate the feasibility of a *central* railroad to the Pacific! This will be gratifying to the people of California, who gave the electoral vote of that State to Mr Buchanan upon the special pledge from him that he was in favor of a Pacific Railroad Certain gentlemen, whose political life depends somewhat upon the keeping of that pledge, have notified the President that his conduct in refusing to sign the above bill will enlist their eternal hostility, both in and out of Congress, if he does not take instant measures to repair the mischief Accordingly a Cabinet meeting was called today, and the subject has been under discussion I learn that the President, in order to escape the storm of indignation which his own littleness created, assumed that the Postmaster General had the authority to shorten the distance of the route named above without the authority of an act of Congress and recommended Secretary Brown so to do—in his judgment he deemed it proper The President thus shirks the responsibility upon Postmaster General Brown, who he knows is opposed to the central route and in favor of the extreme southern route via El Paso in New Mexico, to Fort Yuma and San Diego, which only means from El Paso to Guayamas in Sonora, on the Gulf of California, when the latter country shall be acquired by purchase or conquest.

WRONGS UPON SEAMEN We understand that the Constellation will sail this morning for the Gulf She takes out a large portion of her old crew, who shipped on the 30th of July, 1855, and whose term of service will consequently expire in two or three weeks We have already alluded to this act of gross injustice committed upon poor Jack It can only be attributed to the stupidity of the Navy Department.—*N Y Times.*

This is only in keeping with general policy. The Administration got into office by cheating Pennsylvania and Illinois with promises it never meant to perform Its first official act was to cheat the people of Kansas out of their right to vote Its next to cheat colored citizens out of any rights at all It cheated Minnesota out of a Republican Convention It is trying now to cheat Kansas out of a Free Constitution Taxpayers are cheated by it out of millions every year, or jobs and favors etc.—After all these extensive operations in the swindling line, it cannot be expected to stop at such a trifle as cheating poor sailors out of their time!—*Albany Journal*

Louisville, Ky, boasts of the highest steeple and the deepest well in the United States.—The cross on the Cathedral of St Louis, in that city is 365 feet from the ground, or 28 feet higher than Trinity The new Artesian well lately finished there in 1900 feet deep—the deepest in the world The next in Grenelle, France, and is 1300 feet in depth.

LOCAL AND MAINE NEWS.

☞ The first number of the 'Bangor Evening Times,' the new paper heretofore announced, was issued on Saturday afternoon, and makes a very neat appearance As before stated, it is published by Mr Wm. Thompson, formerly of the Bangor Democrat, and is edited by Chas P. Roberts, Esq, formerly of the Bangor Journal and of the Bangor Union. It has been alleged that the paper was to be the organ of the democratic 'cuts,' as the Union is of the 'ins'—but it makes no such sign as yet The prospectus claims that the paper will be 'independent' in politics It will be regularly issued from and after Thursday next

MILITARY.—Our friends of the Brewer Artillery returned from their excursion to Belfast, on Friday night, arriving in the steamer, Tenor, about 12 o'clock They had a very pleasant visit, and speak in the highest terms of the hospitable welcome and handsome entertainment which they received from their brethren-in-arms, the Belfast Artillery, and their gentlemanly commander, Capt Cunningham, as well as from the members of the Infantry corps, and the citizens generally

On Thursday they dined with the Belfast Artillery at the New England House, and in the afternoon the four companies present went through the Italian Drill in battalion, under orders of Col Stoddard, of the 1st Regt., 1st Div, (Portland) Lt Col Burbank of Rockland, and Maj L D Higgins of Brewer On Friday at 10 o clock, (the Portland Light Guards having returned home in the Daniel Webster,) the Artillery companies made an excursion to Castine, in the steamer Terror—visiting the old fort and other interesting local sites, and returning towards evening The Brewer Artillery then returned home, but spent a short time at Bucksport, where they received the kindly attentions and hospitalities of the citizens, including a very acceptable collation, and were escorted to the boat by the fine corps of musicians, the Bucksport Brass Band

SINGULAR ACCIDENT On Saturday morning, a favorite mare, belonging to Messrs Miller & Marsh, while travelling along State St, stepped upon the side of a small wheel rut in the road, and turned the off fore foot so suddenly as to break the bone below the fetlock The mare did not fall, and consequently no damage was done to the carriage or its occupants. The animal was placed on a jigger and removed to the stable, where she was humanely cared for, and if it is possible for the bone to heal, every opportunity will be given

UNIVERSALIST CONVENTION —The Universalists of Maine will hold their Annual Convention at Waterville on Wednesday and Thursday of next week Fare on Railroad half price, by applying to Messrs Tompkins and Morris and J N Downe

MAINE CONGREGATIONAL CONFERENCE This body will meet at Augusta on the 22nd Arrangements have been made for conveyance over the railroads at half fare The Kennebec Journal says "all the latch strings of our people will be found hanging out

On Friday last, R St Prescott, Auctioneer, sold a cottage house and lot on Hammond St., in West Bangor, for $900 Charles Davis Esq was the purchaser

AN EXCITING SCENE —The Portland Advertiser relates the following

As Julia Brown, daughter of Deacon William Brown, and Caroline Fetter, daughter of the late Capt. John Fetter, were riding in a chaise on Munjoy, yesterday in the forenoon, the horse took fright, and dashed off the hill in the direction of the Works of the Portland Company, at frightful speed At this moment a truckman, seeing the horse approach, stopped his heavy dray directly in his way,—and the horse ran on to the team with great violence driving one of the stakes into his body and injuring him so badly as to ruin him — The young women were thrown out violently, but, as we learn, were not injured Their fright was such that one of them went into a fit The horse was a valuable one, worth some $200—and belonging to Deacon Brown —but his sacrifice was of very little account to the risking of the lives of these young women He was wedged into the truck team so firmly by his impaling, that it had to be tipped over in order to get his body free from it — The prompt decision of the truckman was worthy of much praise, for by it the lives of the girls were probably saved—as, if the horse had not been arrested, he would in a moment have gone over the bank, towards which he was hastening at a tremendous pace

PAINFUL ACCIDENT —Jonathan Haskell, son of Francis Haskell of Standish, about 19 years of age, while engaged in sawing shingles on Friday last had one of his hands taken off by the saw, as we learn from the Biddeford Gazette A shingle got caught in the machine, and as Mr H stepped forward to stop it by shutting the gate, he made a misstep and in falling put out his hand to save himself, broke it in contact with the saw which severed it from his wrist instantly So quick was it done that he was not aware of his loss till he reached out his arm to shut the gate, and turning towards the platform beheld his hand lying thereon.

SOME TRACES OF THE MISSING MAN —About 10 o clock this forenoon, Policeman Davis discovered a hat floating on the water near the Great Eastern Wharf on Fish Point, which on being taken to the wife and friends of Mr Apollo Howe, was immediately recognized as Mr Howe's hat, that he had on when he left his house on Saturday night, thus relieving every doubt that the unfortunate man must have committed suicide by drowning, but it is hard to tell from what point Mr Howe went into the water —*State of Maine*

RAILROAD ACCIDENT —A man named Foster, while in a state of intoxication, on Wednesday evening, fell across the railroad track at Island Pond, as an engine was approaching The wheels of the engine passed over one of his legs, crushing it dreadfully. Amputation of the limb was performed.

BOY KILLED.—We learn from the Argus that Joseph R. Anderson, son of Sylvanus Anderson, late of Cumberland, was killed in that town on the 9th inst, by a roller passing over him in the road He was six years old His run up behind the roller as it was drawn by oxen and passed his head upon it, where he was drawn over it and it then passed over his body killing him instantly.

RELIGIOUS.—Among the recently announced baptisms in the state, we notice the following At Lewiston on the 13th, Rev Mr Burgess of the Free Will Baptist church, immersed thirty persons At Waterville on the 6th, twenty-eight were baptised and received into the church, among whom was an old man over whose head seventy-eight winters has passed and his little grand-daughter, thirteen years of age At Bath five were baptised by the Rev Mr. Taylor, at the Elm street church, and thirty five by F W Baptist and Methodist ministers.

At Cherryfield, Rev Mr Kelley of the Baptist church, baptised twelve persons on the last Sabbath in May. The most of the candidates were heads of families, and one man seventy-six years of age Fifty seven have been baptised and admitted to that church since the year commenced

NEW COUNTERFEIT —Counterfeit fives, on the Lumberman's bank, of Oldtown, altered from broken Commercial Bank, Perth Amboy Vignette—men in a boat harpooning a whale This is said to be a dangerous counterfeit, well executed, and calculated to deceive

THE HAT found on Wednesday, and which was supposed by the family of Mr Apollo Howe, Portland, to be the one he wore at the time he left his house on Saturday night, upon a more careful examination has been found out not to belong to him The family hope yet to hear that he is alive

THE LIQUOR VOTE —We learn from the Augusta Age that returns from 160 towns, comprising over one half of the entire State, foot up as follows

For the prohibitory law of 1858—17 500
For the license law of 1856—2,500

The total vote of the State for the law of 1858, will not vary much from 35 000

MAINE STATE FAIR —A correspondent of the Boston Journal writing from Augusta, gives the following description of the ground and preparations for the coming State Fair

"I went the other day to examine the grounds and preparations for the State Agricultural Fair, to be held in this city next Autumn I don't think it possible to find a more beautiful spot for such a purpose anywhere than that selected It will be worth while for you to come down and see us then, and for all who design visiting our beautiful city during the season, to happen here at that time Augusta will then look her prettiest, and that is pretty enough,

The spot appropriated is about twenty-four acres in extent, and is situated just below the State House on the east side of the road — Near one edge of the field is an elevation of land commanding the entire enclosure, and from which seven or eight thousand people could not only be accomodated and see all that is going on in any part of the grounds, but from which a splendid view of Hallowell village, the State House, Arsenal Hospital and Augusta village can be obtained A trotting course of half a mile, perfectly level, is being graded Every accomodation is being arranged on the grounds The Capitol and a temporary building back of it are to be used for exhibition rooms A side rack at the Kennebec and Portland Railway is to land passengers at the very grounds, and and under the efficient management of G W Ricker of the Stanley House and Thomas Lang, Esq., of Vassalboro who for taste, experience, and disposition, are eminently fit for the business, we dare prophesy a brilliant success at the Maine State fair in 1858"

[By Telegraph to Evening Paper]

ITEMS PER VANDERBILT —THE ERUPTION OF VESUVIUS —The eruption of mount Vesuvius on the 17th of May, consisted of seventeen streams of liquid lava The inhabitants in the vicinity of the mountain were forced to flee with their moveables Much damage was anticipated

ATLANTIC TELEGRAPH —The Telegraph fleet was to start on its expedition for laying the Atlantic cable on the 16th

WASHINGTON ITEMS —It is rumored that Hon John A Dix, of New York, has been offered the mission to France

Also that the U. S Ministers to Switzerland Turin and Spain are to be recalled

Advices from St Domingo give assurances that ample reparation will be made to American citizens for outrages there

GWIN AND WILSON —The Washington correspondent of the New York Times writes as follows

Gwin a prime cause of offence was the successful onslaught which Wilson made on the avenue bill, to which he got tacked on several money saving amendments—among which was one cutting down the salaries of officials in California about one half This, with an amendment requiring the printing of post-office blanks, &c, to be given to the lowest bidder, and two or three others, reduced the bill something like a million and a half from the original amount of four millions

WASHINGTON MATTERS We take the following from the correspondence of the N Y Tribune

"The contractors will make a desperate effort now to establish Salt Lake as a great military depot with a view to carrying forward the munitions and supplies needed for an active campaign If this project be successful, the expenses would be inconsiderably reduced as between peace and war Interests, amounting to several millions, are at stake and every appliance will be brought to bear on the Department and the Administration.

Mr Buchanan's persistent demands for "more money" do not sound much like his promised "retrenchment" But it is always the way with Democratic Presidents Mr. Van Buren when he came in, found our annual expenses seventeen millions, and almost doubled them before he went out. Mr Polk found them twenty-two millions, and he doubled them Gen Pierce found them forty millions, and he very nearly doubled them — Mr Buchanan, probably, is only trying to see whether he cannot double them again —*Albany Journal*

Concord, N H, has the largest couch factory in the United States, It is that of J S & E A Abbott, The entire premises cover about four acres of ground The number of men employed is about two hundred, Every description of carriages is made, the annual value of which is $300 000 One fourth of the whole are exported Mexico, South America, California and Australia are large purchasers One hundred mail wagons are now being built for the Pacific Mail Company, to be placed on the route between Memphis and San Francisco.

THE LOUISIANA LEVEE SYSTEM —The crevasse at Bell's plantation has caused a loss of over $3 000 000 to Louisiana The total loss will be over $10,000,000 by breaking levees in the State this present season. It has been eight years since the alluvial lands of this State have been overflowed, except in a few localities, when the crevasses were of no importance. The pecuniary damage is immense.

The Great Black Cat Case.

This tremendous case is now pending before a judicial tribunal of the state of Maryland, and presents many remarkable features of the ingenuity and speculative capacity of the defendant in the case For the benefit of the legal profession and gentlemen generally who may wish to enter a new field of speculation, I will give a short history of the case as I heard it —

Some few years ago a gentleman of Maryland conceived that an immense fortune could be realized by the rearing of black cats for the sale of their skins The principal obstacle to this plan was the impossibility of keeping the animals together and preventing them wandering off, as their activity, assisted by the penetrating quality of their claws would enable them to defy any fire course; and at last, after much thinking, the idea suggested itself to his mind that water was the only barrier that the cats would not pass. Being in possession of an island that appeared to be just suited for the experiment, he found all obstacles to the plan removed, and set about organizing the affair

He employed an agent to put out his circular in which he stated that he would give so much a head for every black cat he could get. This advertisement was circulated through all the counties bordering upon the Chesapeake bay, and the negroes got hold of it. In a very short time all the black cats through those counties were stolen by the negroes, and sold to the agent, who had depots established at several convenient points Old ladies missed their favourite cats and mourned them as dead—but the negroes incited by the price offered, spared none In this way one hundred and fifty black cats were collected and transported to the island, and the agent took up his abode there like another Robinson Crusoe, as superintendent and guardian of the cats Those animals appeared to enjoy themselves vastly when first put on the island, and spent their time either in playing with each other, or hunting birds, or ground mice, but at last their game failed them and having no other supply of food, they became hungry and desperate, and roamed about the island in large bands yelling for food They at last became dangerous, and the agent wrote to his employer a statement of these facts, accompanied by a request to know how he was to feed them He wrote back for the agent to set a couple of negroes to work to catch and open oysters for the cats, which order was carried out The cats having the alternative of oysters or starvation before them, very naturally chose the former, but, not being accustomed to such unnatural food, a species of cholera broke out amongst them and one half died

This calamity drove the survivors mad, and they either committed suicide, or, in a fit of desperation swam to the mainland At any rate, they disappeared and were never heard of more

The agent then wrote again to his employer to acquaint him with the result of this new treatment which news was accompanied by a modest request for the payment of his wages —for this cat experiment occupied a space of upwards of a year, The latter was so indignant at the conduct of both the agent and cats, that he flatly refused, and the consequence of his refusal was a *suit* brought by the agent to recover his wages This suit has been defended for two years, and during its progress I have become acquainted with the facts

As far as the theory of the speculation went, it was a magnificent idea The skin of the black cat is worth in Boston 50 cents It was supposed that they would increase exactly tenfold per annum Thus say, first year, number of cats, 100, second year, 1,000, third year, 10 000, from which there could be obtained 5 000 toms for sale, bringing $2 500, and leaving 10,000 stock cats remaining, which would give the fourth year the enormous number of 100 000 cats upon the island, after which all the surplus, over and above the last number were to be caught in box traps and the skins sold to Boston furriers This stock of 100,000 cats were to produce 1 000 000 per annum, and the revenue consequently to be derived from the island, would be in the neighbourhood of $500 000 per annum —Washington Union

Composted Muck and Ashes.

Ashes are well known to be a valuable fertilizer for all dry soils and muck is generally found beneficial to soil deficient in vegetable matter The latter is always so unless imperfectly decomposed, or saturated with acids unfavorable to vegetation Both articles are cheap and easily obtained—ashes being worth in Western New York about 100 per bushel, while muck can be had on most farms for the mere trouble of digging The two combined, form a fertilizer of high value, as we shall proceed to show

One of the best practical writers on this subject, says—"Next to a compost of muck and barn manures a mixture of *muck and ashes* is the most common, and by experienced persons is considered the most profitable It is certainly one of the most convenient mixtures, as the ashes may be transported over a considerable distance without incurring unprofitable expense The farmer, when ashes are applied, finds his plants vigorous, of a fine healthy color, growing permanently throughout the season, and producing highly perfected and abundant crops, so that their value *to be used with muck*, is often estimated as high as 50 cents a bushel in an unleached state

Another writer says—"To bring out the ammonia the muck must be fermented—which may be effected by the use of alkalies or fresh stable manures From fifteen to twenty bushels of ashes, or ninety pounds of potash are required to a ton of peat' Prof Flint of Mass, relates of a farmer in Watertown, Massachusetts, that he sells the dung of his cattle, and uses instead, leached ashes and muck—one part to three of the latter—thus keeping his farm in a high state of fertility — He digs his muck in the fall and mixes the ashes with it in the spring, shoveling it over three or four times

We have not the least doubt that composted muck and ashes is as much value, load for load, as the generality of barn yard manure and do not hesitate to apply it for the production of any crop Prof Dana says that the power of producing alkaline action on the insoluble *gains*, is alone wanting to make peat as good as cow dung' Any alkalie will do this, and ashes answer well this purpose, Half dried muck heaped with ashes for several weeks will decompose the same pretty thoroughly, a single turning will complete the work unless the muck be of the coarsest character

We have spoken of other forms of muck compost, our present purpose being to urge the use of muck and ashes as manure —*Rural New Yorker*

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Havana.

NEW YORK, June 20.

The steamship Black Warrior, from Havana 15th, arrived last night.

Sugar and molasses was active at unchanged rates. Sterling exchange a trifle lower.—Freights more active but rates unaltered.

The coal depot opposite Havana was on fire and already damaged to the amount of $100,000.

Yellow fever of the most virulent nature was prevailing to an alarming extent. The weather was wet and extremely warm.

Steamers Felton and Water Witch had touched at Cardenas and resumed their course after the Styx and Buzzard.

The American ship-masters at Havana had called a meeting for the purpose of making arrangements to put their vessels in fitting condition to resist the English cruisers.

It was reported at Havana that a slaver with 900 Africans, had been captured on the south side of the island.

The Black Warrior spoke on the 15th, just outside Havana, the U S steamer Arctic bound in.

From Utah.

WASHINGTON, June 20.

Col Kane has arrived here, bringing dispatches from Gov Cumming, whom he left at Camp Scott May 16th. They were delivered to the President. Their purport has not officially transpired, but it is ascertained that many of the accounts with which the public mind has been pre-occupied, are erroneous, and calculated to deceive, the country in respect to Utah matters generally. To this fact may be attributed the uncourteous refusal of Col Kane to communicate with the press. It is understood that Col Kane denies the truth of the telegraphic announcement from Boonesville intimating that the army would move on the arrival of the peace commissioners, when in fact Gov Cumming has requested it to remain where it is until orders shall be received from Washington. Contrary to the reports widely circulated Col Kane does not admit that there has been any such want of harmony between Gov Cumming and Gen Johnston as would jeopardize the public interests. He speaks in eulogistic terms of Gen Johnston, and the high state of discipline in which the latter maintained his forces, and of the praiseworthy spirit manifested by the army during the winter.

The friends of the administration are much pleased with the manner in which he is understood to allude to the conduct of Gov. Cuming, saying that he was deserving of the gratitude of his country. There was great hope in Utah that the war was at an end. A peace party had been formed which was sufficiently strong in time to arrest the progress of the Mormon forces against our own, last spring. It was the impression in Utah that Young, who opposed the cause of the U. S., would, in this respect be able to maintain his position. There was at one time strong opposition to him before emigration was resolved upon, but since, this feeling of hostility has been subsiding.

Various Items.

NEW YORK, June 19.

The Leader of to-day says the grand jury has found a bill of indictment against Judge Russell for inciting to a riot in the affair of George Wilkes, at the Academy of Music.

The Washington correspondent of the Evening Post says that Capt Turpin of New York was unanimously confirmed as Minister to Venezuela.

The Tribune correspondent says despatches from England were laid before the Cabinet yesterday. They do not in any substantial form correspond to the expectations of the administration or the opinion authorized by Lord Napier's assurance. While they disclaim authority for any offensive acts on the part of the cruisers in the gulf, and are prepared to make reparation to that extent, they insist upon the purpose of suppressing the slave trade by the most determined and effective means. A disposition to exercise the right of visitation in the most acceptable manner is avowed, and to that end Lord Malmesbury expresses his willingness and desire to receive any suggestions from the American Government. The unexpected tone of these despatches have made a great impression upon the cabinet.

Private but authentic advices accompanying Gen Johnston's dispatches from Utah, state that the submission of the Mormons is sullen and unsatisfactory, and notwithstanding all their professions they still hold actual military possession of all the passes.

WASHINGTON, June 19.

The southern mail brings Galveston dates of the 9th inst. The U S. surveying schooner Vixen had arrived there. All the crops in the north-eastern section of the State exceed anything ever known. A party of Lynchers near San Antonio were committing terrible outrages. The crops on the Rio Grande were fine. There had been a tremendous hailstorm at Fort Davis.

NEW YORK, June 19.

Brig Ann Tyler at this port from Guaymas, P. R., reports June 3d lat. 21-27 N., lon. 66-45, fell in with Schooner George Millard, of Orleans, Capt. Snow, leaking 1200 strokes per hour—took from her five passengers and brought them to this port. Captain Snow intended to put into Turk's Island. Arr at Havana 12th, brigs Alice, Clements, Eastport; Cosmopolite, Hobbs, Portland; 12th, Lizzie Drew Gooding, Portland. Arr at Matanzas, 8th, brigs Beaver, Tapley, Bangor; 9th Albatross, Small, Portland; American, Walters, do.

CINCINNATI, June 19.

The river is now falling rapidly. The weather is fine and very favorable for the crops.

New York Markets.

NEW YORK, June 19.

Flour—State and Western 5c a 10c lower, and very heavy; Super State 3,85 a 3,90; extra State 4,00 a 4,10; com to good extra Western 4,05 a 4,45. Southern unchanged—Mixed to good 4,60 a 4,75; fancy and extra 4,80 a 5,00. Canada—superfine nominal; extra 4,10 a 5,25.

Wheat—market heavy; Chicago spring 84 a 89; Milwaukie club 86 a 93; Western white 1,05 a 1,07; do red 1,00 a 1,02.

Corn dull and nominal—mixed Western 73 a 74; white 75 a 78; yellow 78 a 79.

Oats dull and declining—Southern and Jersey 33 a 42; Northern and Western 44 a 46.

Beef more active—Country mess 10,75 a 11,50; prime nominal; re-packed Chicago 12,00 a 12,50; prime mess 17,00 a 21,00.

Pork dull and declining—Mess 16,86; prime 13,75 a 13,80; Western prime mess 15,75 a 16.

Sugars buoyant—Muscovado 8¼ a 9; Havana 6¾.

Coffee—Rio active and firm 10 a 11.

Molasses quiet.

A proposition to amend the constitution of Connecticut, so as to extend the right of suffrage to women, received 23 votes in the Connecticut House of Representatives. It was defeated by 45 majority.

The Cincinnati Gazette of Monday says flour has advanced 15c since our last, chiefly on the discouraging reports of damage to the growing crops. Moderate sales of XX at $4,50 after for extra. Corn also advanced yesterday, closing at 54c. Oats were heavily offered and sold with sales at 35c.

PICTURES AT THE LOUVRE.—All Paris has been in crowds at the long gallery of the Louvre, which in its full extent is now thrown open, after 4 years during which the Flemish school in particular was undergoing the process of cleansing. A general outburst of surprise and delight has saluted the re-appearance in the flesh of the whole series of the Medici marriage paintings, in which Rubens comes out in a blaze of triumph. For two hundred years successive coats of varnish have been daubed and redaubed over these acres of canvass, until they were literally buried under accumulated strata of dirt. These have been cleared off, and the hidden handicraft of the glorious Peter Paul is revealed.—Never were such carnations seen in any collection of that master. As if to render palpable and tangible the result, one large composition, "The Triumphal Car of Faith," has been only cleaned one-half, a line falling obliquely from the top angle across the picture to the angle opposite below; the effect is as if a flood of sunshine had traversed the scene illuminating that portion with dazzling irradiance, and leaving the rest in "disastrous twilight."

HOARDING SPECIE.—The fact we alluded to some days since, that specie is sometimes hoarded on the Cape, is illustrated by the fact that a Boston broker recently purchased of a family in Barnstable county, specie to the amount of $53,000. This hoard had evidently been in the house for many years,—the deceased whose property it was, had not been thought a man of much property, though close and miserly. Many of the Spanish dollars were of ancient date; but they showed by their color and perfect stamp that they had not circulated much since their coinage. The Spanish gold pieces were enclosed in scraps of parchment, on which the value of each was marked; and the date indicated that they had been thus hoarded for a long period, in all probability more than half a century.—*New Bedford Mercury.*

THE FLOOD AT CAIRO.—Chicago papers just received contain details of the immense destruction of property at Cairo, though the entire submersion of the town. The assessed valuation in 1857 was nearly $2,000,000, but the papers say this conveys no distinct idea of the actual loss or of loss sustained by the Illinois Central Railroad Company in actual improvements in Cairo. The last dispatch reported the water still rising.

The engineer of a fast train was arrested by the authorities of a "one-horse town," in Dauphin county, Pa., for running through the borough at a greater rate of speed than is allowed by their ordinances. Having neglected, however, to give publicity to these ordinances, they could not impose any fine, and their discomfiture was aggravated by the malicious excuse of the engineer, that "he didn't know there was a town there!"

A Leavenworth (Kansas) paper relates a terrible accident as having occurred in one of the principal streets of that place. One of its chief officials was almost killed by—*an accidental discharge* of his duty.

ANOTHER BOGUS CONCERN BROKEN UP.—Mayor Tiemann has searched out another bogus operator who has been in the profitable practice of addressing circulars to merchants in other cities, offering for a fee of two dollars, to send them a copy of their standing on the books of the mercantile agencies. He has been carrying on quite a business, which the Mayor has broken up.

P. K.

HAL, PAIN BY DAYLIGHT—I feel it to be my duty to bear testimony to the efficacy of your Pain Killer. I have used it for years for complaints of the stomach and bowels. I had a very severe attack a few days ago of the ague, and such a pain in my back for three days and nights that I could get no rest. I sent and got a 25 cent bottle of the "Vegetable Pain Killer." I took a little in wardly, and bathed according to directions, and one application has removed all the pain, and I am able to write to-day, though with a trembling hand." The application was made last night about 9 o'clock, and I had a sweet night's rest. I have recommended it for several years, and I have travelled a good deal, and it has given universal satisfaction where it has been used according to directions.

Yours gratefully, L. PERRY CHILDS,
Pastor of Baptist Church, Troy, Ohio.

☞ *Nervous—Do you use any?*—If so, call on the agent and get a bottle of Dr. TOBIAS VENETIAN HORSE LINIMENT. It cannot be beat for Cuts, Galls, Colic, Lameness, and is a certain cure for Sore Throats. In pint bottles, only 50 cents. See that it is signed S. T. Tobias. Depot, 56 Cortlandt street, New York.

Sold by S. S. Parkins, Bangor; S. Libby, Orono; C. Fish, Oldtown; J. G. Richardson, Oldtown; J. H. Eaton & Co., Milford; W. & T. Gray, East Hampden.

NOTICE.

Choice Lumber Lands For Sale in Pennsylvania!

THESE Lands are located on the Susquehanna River, and the larger tributaries in Clinton, Clearfield and Centre Counties. They are thickly covered with a heavy growth of choice Timber, principally White Pine of excellent quality, yielding on an average 40,000 feet to the acre of Pine alone. The Sunbury and Erie Railroad passes through several of them. The River and streams are admirably adapted for Logging and Rafting. Logs are floated to Lock Haven, a few miles below, and there sold at great profit. These Lands are well worth examination, as they present unusual facilities for extensive lumbering operations. Timber leave is now readily sold for $2 per M feet. All these lands are underlaid with several veins of bituminous coal of excellent quality. On account of facilities of transportation and improvements making in that section, these lands offer every inducement for profitable investment. For full particulars, locality, &c., inquire of ANDREW GRIFFIN, Esq., of Bangor, or address QUIGGLE & PANCOAST,
No. 108 So. 4th St. Philad'a.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making, this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $6,00—including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Rastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to
EMERY & FOX, Brown's Wharf, Portland.
H. B. CROMWELL, Pier 12 N. River, New York.
Portland, April 2, 1858

California Steamers,

Carrying the United States Mail.

30th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 6th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line *a sure and short passage without any detention on the Isthmus.*

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,
No. 16 Broad Street, Boston.
August 1, 1857 1y

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. P. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.
L. BILLINGS, Agent.
June 12, 1857 dtf

American & Foreign Patents.

H. H. EDDY,
Solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington under Act of 1837,)
76 State Street, opposite Kilby-st.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, research, etc. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON,
Commr of Patents.

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1859, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40, 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1859.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $23.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 600 to 600 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis, to any part of the country.

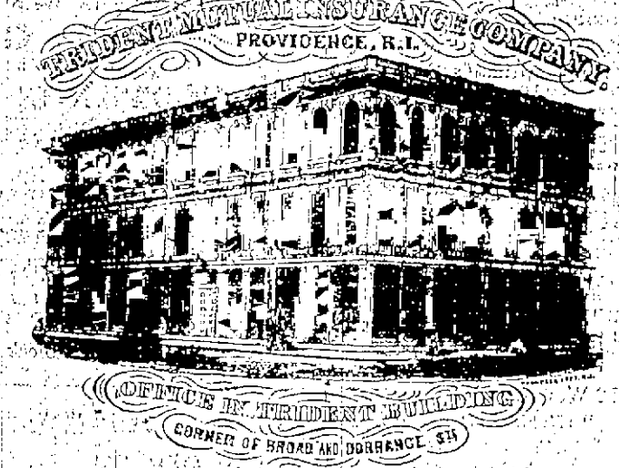
FIRE AND MARINE INSURANCE.



CHARTERED BY LEGISLATURE, JUNE, 1846.

Authorized Capital, $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED P. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Perry, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c.; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

Bangor, December, 1857.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which, perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

THE LIVER.

NV[illegible]

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after fasting is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night loosens the bowels readily, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Colic*, while

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 345 Broadway, N.Y.
Sold by all Druggists. Sold, also, by H. P. Bradbury, Bangor. June 9'58 d&eowly

LIVER INVIGORATOR

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness, or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious* type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 345 Broadway, N.Y.
Sold by all Druggists. Sold, also, by H. P. Bradbury, Bangor. June 9'58 d&eowly

OLDTOWN HOUSE,

Oldtown, - - - - - - Maine.

BY MRS. HARRIET STINSON.

The undersigned very respectfully informs her friends and the public generally, that she has lately refitted and refurnished the *Oldtown House*, and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts always cared for. The table will always be supplied with the best the market affords, and all the luxuries of the season.

In connection with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown; with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms, on giving a short notice. HARRIET STINSON.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Analeptic Counterfeits, Bronzes, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

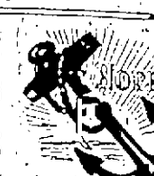
THE LIVER.



Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of the complaints that afflict mankind are found to originate in the liver, but your Pills are the best medicine we know of to cure these numerous evils of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. H. Cartwright, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild but very certain and effectual in their action, and all this which makes them invaluable to us in the daily practice of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find them peculiarly efficacious upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of those complaints than any one remedy I can mention. I therefore rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Anon, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and I have satisfied themselves are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them almost like a charm. I have cured numbers of the worst cases of Dyspepsia with them, which, but for your pills and confidence with them, would, not improbably, mentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for *Dysentery and diarrhœa*. Their aperient qualities render them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, well known in the Dominions and Kingdom of Canada.

"I find one or two large doses of your Pills taken at the proper time, are excellent promoters of the cure of worms, when wholly or partially expelled, and also they are powerful to cleanse the stomach, for several days, so much that the physic we have had I recommend to our patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Temple, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of constipation. If others of our fraternity have found them as efficacious as I have, they will join with me in recommending it for the benefit of the multitude who suffer from that complaint, which, although bad enough in itself, is the prolific source of others that are worse. I believe it originates in the liver, but your Pills are the best medicine to cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Rachel Ish, Philadelphia.

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them in my practice, and agree with great emphasis of their powers. They stimulate the excretories, and every day I see the importance of stagnants in the blood, congestive disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as your preparations are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PALPITATION—FITS—&c.

From Dr. Edwards, Bryt. Tennessee.

"DEAR DR. AYER: I cannot answer you so well as by saying that I have cured with your Pills better than I have done with any other treat with a purgative medicine. I have great confidence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills are the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. There is nothing of the kind or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and everything of it is under his own eye, with invariable accuracy and care. It is tested and proved by his own test, faithful, and consequently can be relied on as generally without adulteration. It supplies the public with a remedy that we do believe is now for the cure of all pulmonary complaints, for Colds, Coughs, Hoarseness, Asthma, Croup, Whooping Cough, Bronchitis, Incipient Consumption, and for the relief of confirmed consumptives in advanced stages of the disease. As time makes these facts wider and more known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the humble peasant to the palaces of European kings. Throughout this entire country, in every state and city, and in almost every hamlet it is found, Cherry Pectoral is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any doubt once on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Not for its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and sustain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, and the benefits of its afflicted they can never forget, as its cured cures too numerous and remarkable to be forgotten.
